Hole Diameter:

0.255 inches

Outside Diameter:

0.398 inches

External Prebent Key Length:

0.050 inches

External Prebent Key Width:

0.62 inches

Internal Straight Key Width:

Between 0.043 inches and 0.049 inches

Distance From Centerline To Top Of Internal Key:

Between 0.0925 inches and 0.0955 inches

Distance From Centerline To Inside Of Prebent Key:

0.199 inches

Overall Distance Including Keys:

0.462 inches

Material Thickness:

Between 0.027 inches and 0.033 inches

Product Name:

Washer, key

Material:

Steel

Material Specification:

Per qq-s-698 assn standard single material response

Style Designator:

Key

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A022b0
