First End Style:

Square

Hole Arrangement Style:

Drilled through center

First Hole Diameter:

Between 0.118 inches and 0.125 inches

Pinlength:

Between 0.370 inches and 0.390 inches

Pindiameter:

Between 0.2450 inches and 0.2470 inches

Second End Relationship With First End:

Identical

Material:

Steel comp 347

Material Specification:

Ams 5646 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A212a0
