Fabrication Method:

Cold formed

Fastener Length:

2.750 inches

Head Style:

Flat

Head Diameter:

0.284 inches

Point Style:

Diamond

Sterilized:

No

Shank Width:

0.181 inches

Decorative Head:

No

Special Features:

Astm-f1667, table 17 requirements modified to require round mechanically deformed (fluted) shank in lieu of mechanically deformed flat stock shank

Heat Treatment:

Hardened

Material:

Steel

Material:

Steel

Supplementary Features:

Concrete

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A04300
