Fabrication Method:

Cold formed

Fastener Length:

1.500 inches

Surface Treatment Location:

Head and shank

Head Style:

Oval solid (includes round and button heads)

Shank Diameter:

0.268 inches

Shank Style:

Screw

Point Style:

Round

Sterilized:

No

Decorative Head:

No

Heat Treatment:

Hardened

Material:

Steel

Material:

Steel

Surface Treatment:

Zinc

Surface Treatment:

Zinc

Specification Or Standard:

7 group

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A04300
