**First End Style:**

Radius

**Pinlength:**

1.750 inches

**Pindiameter:**

0.5000 inches

**First End Corner Radius:**

0.100 inches

**Second End Relationship With First End:**

Identical

**Surface Finish:**

32.0 microinches outside diameter

**Special Features:**

130, 000 min tensile strength

**Material:**

Iron alloy 660

**Material Specification:**

Ams 5735 assn standard single material response

**Surface Treatment:**

Passivate

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A212a0
