First End Style:

Countersunk

Pinlength:

Between 2.955 inches and 2.965 inches

Pindiameter:

Between 0.2470 inches and 0.2475 inches

Second End Relationship With First End:

Identical

First End Countersink Angle:

60.0 degrees

First End Countersink Diameter:

0.125 inches

Special Features:

Centrally located slot 0.062 in. Min 0.067 in. Maximum radius

Material:

Steel comp 630

Material Specification:

Ams 5643 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A212a0
