Overall Length:

0.312 inches

Diameter:

0.156 inches

End Application:

Mrap - common nsn - used on maxxpro cat i and 3 other weapon systems

Shear Strength:

3000 double pound

Special Features:

Reem hole size min: .156 / max: .160; stock thickness nom: .032; chamfer length max: .048; chamfer diameter max: .151

Material:

Steel comp 1070 or steel comp 1071 or steel comp 1072 or steel comp 1074 or steel comp 1075 or steel comp 1078 or steel comp 1080 or steel comp 1084 or steel comp 1085 or steel comp 1086 or steel comp 1090 or steel comp 1095

Style Designator:

Slotted

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A212a0
