First End Style:

Square

Pinlength:

6.625 inches

Pindiameter:

Between 3.8731 inches and 3.8745 inches

Second End Relationship With First End:

Identical

Surface Finish:

63.0 microinches outside diameter

Special Features:

0.500-13 unc-2b threaded hole in each end 1.000 in. Deep; flat on od along lg

Material:

Nickel alloy

Material Specification:

Qq-n-286, cl a federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A212a0
