Shank Length:

Between 4.373 inches and 4.377 inches

Shoulder Diameter:

1.000 inches

Shank Diameter:

0.750 inches

Overall Length:

Between 12.373 inches and 12.377 inches

Special Features:

Shoulder end threaded 0.375-24 unf 2b; other end drilled 31/64 in. Diameter to a depth of 1.000 in., 0.500 in. Diameter to a depth of 0.750 in. Min; flats located 0.500 in. In from shoulder end 0.500 in. Wide, 0.874 in. Width across flats

Material:

Aluminum alloy 2024

Material Specification:

Qq-a-225/6, t351 federal specification single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Aa0109-045, fscm 94756 mfr ref single treatment response

Style Designator:

Shoulder

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A212a0
