First End Style:

Square w/thru hole

Inside Diameter:

0.609 inches

Pinlength:

Between 3.250 inches and 3.280 inches

Pindiameter:

Between 0.7465 inches and 0.7475 inches

Second End Relationship With First End:

Identical

Special Features:

Both ends chamfered .020 inches by 45degrees

Material:

Aluminum alloy 7075

Material Specification:

7075-t73511 assn standard single material response

Surface Treatment:

Anodize

Surface Treatment Specification:

Lb0125-103 type i, fscm 89372 mfr ref single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A212a0
