First End Style:

Slotted

First End Slot Width:

0.578 inches

First End Slot Depth:

1.340 inches

Second End Relationship With First End:

Identical

Special Features:

Hole drilled center of shank-0.198min .204 in. Diameter max

Material:

Steel comp 4330

Material Specification:

Ams6411 assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A212a0
