First End Style:

Square

Shank Length:

0.400 inches

Shoulder Diameter:

0.250 inches

Overall Length:

0.850 inches

Second End Relationship With First End:

Identical

First End Location:

Both ends

Special Features:

Shank has undercut radius on each side size 0.030; threads .190-32 unf-2a; shoulder has undercut radius on each side 0.030

Material:

Steel comp 303

Material Specification:

Astma582 assn standard single material response

Surface Treatment:

Passivate

Surface Treatment Specification:

Qq-p-35 type ii federal specification single treatment response

Style Designator:

Shoulder

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A212a0
