First End Style:

Oval

Large End Diameter:

0.7060 inches

Pinlength:

3.500 inches

End Application:

5895-01-384-6751

Second End Relationship With First End:

Identical

First End Location:

Both ends

First End Outer Radius:

0.706 inches

Special Features:

Ultimate tensile strength of 125, 000 to 145, 000 psi

Material:

Steel

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-p-416, type 2, class 2 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A212a0
