Shoulder Diameter:

Between 0.557 inches and 0.560 inches

Overall Length:

1.377 inches

First Step Diameter:

Between 0.420 inches and 0.425 inches

Second Step Diameter:

Between 0.434 inches and 0.436 inches

Second Step Length:

0.760 inches

Third Step Diameter:

Between 0.309 inches and 0.311 inches

Third Step Length:

0.562 inches

End Application:

Navy aircrew common ejection seat

Shoulder Length:

1.125 inches

Product Name:

Shaft II release mechanism right hand

Material:

Stainless steel

Style Designator:

Shoulder

Specification Data:

Ams5659h900 professional/industrial association specification

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A212a0
