Head Style:

Flat

Diameter:

0.499 inches

End Radius:

0.250 inches

End Application:

C-17a aircraft; link assembly, ramp toe lock, cargo door

Pin Head Diameter:

0.750 inches

Surface Finish:

32.0 microinches

Product Name:

Pin, straight headed

Special Features:

pin length 6.07 in. Includes 0.600 add above head, flat 0.100 thick, approx 0.750 wide; one hole 0.195 dia; counterbored on pin end 5.250 in. 0.250 dia, no plating counterbore

Material:

Steel comp xm-13

Material Specification:

Dms 2100 mfr ref single material response

Surface Treatment:

Chromium

Surface Treatment Specification:

Dps 9.07 mfr ref single treatment response

Style Designator:

Straight

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A212a0
