End Application:

Door, wt, clear opening, lh, 30 in x 63 in

Product Name:

Hinge pin

Special Features:

Shinge pin, pc 174, is to be drilled with two holes to provide alternate cotter pin positions. The first hole from the top is the preferred position. The position will allow one flat washer to be inserted between the cotter pin, and the bottom of the hinge pad. The second hole is provided when the cotter pin cannot be inserted into the first hole. When the second hole is used. A sufficient quantity of flat washers shall be inserted to prevent the hinge pin from vertical movement.

Material:

Stainless steel

Material Specification:

Astm-a276 type 316, cond a assn standard single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
