First End Style:

Square internally threaded

Pinlength:

Between 2.030 inches and 2.090 inches

Pindiameter:

0.7500 inches

End Application:

Nsn 2350-01-390-4683; w/s: recovery vehicle, full tracked

Product Name:

Rod, light switch, lever

Material:

Steel comp 304

Material Specification:

Astm a276 federal specification 1st material response and astm a479 federal specification 2nd material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A212a0
