First End Style:

Square

Hole Arrangement Style:

One end drilled

Pindiameter:

2.2500 inches

End Application:

End item nsn: 3990-01-443-8024 engineering mission module (emm), palletized loading system (pls)

Second End Relationship With First End:

Identical

Product Name:

Assembly pin hinge-comp/rem pin

Special Features:

Collar welded to one end of pin 1.000 inch from centrlne of drilled hole. length from underside of collar is 10.750 inches.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A212a0
