First End Style:

Square

Pinlength:

0.320 inches

End Application:

T56 engine

Second End Relationship With First End:

Identical

Surface Finish:

32.0 microinches outside diameter

Product Name:

Pin locking-11 stage

Material:

Steel comp 302

Material Specification:

Ams 5688 assn standard single material response

Surface Treatment:

Passivate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A212a0
