| Fastener Length:                      |
|---------------------------------------|
| Between 0.386 inches and 0.602 inches |
| Head Style:                           |
| Watertight                            |
| Head Height:                          |
| Between 0.036 inches and 0.040 inches |
| Hole Diameter:                        |
| Between 0.127 inches and 0.131 inches |
| Shank Diameter:                       |
| Between 0.180 inches and 0.184 inches |
| Shank Style:                          |
| Tubular                               |
| Head Major Diameter:                  |
| Between 0.412 inches and 0.422 inches |
| Hole Depth:                           |
| Between 0.192 inches and 0.208 inches |
| Min. Tensile Strength (psi):          |
| 55000 pounds per square inch          |
| Material:                             |
| Copper alloy 270                      |
| Shelf Life:                           |
| N/a                                   |
| Unit Of Measure:                      |
|                                       |
| Demilitarization:                     |
| No                                    |
| Fiig:                                 |
| A040a0                                |
|                                       |
|                                       |
