Fastener Length:

1.125 inches

Head Style:

Universal

Head Height:

Between 0.080 inches and 0.090 inches

Shank Diameter:

0.188 inches

Shank Style:

Countersunk (undrilled)

Head Major Diameter:

Between 0.356 inches and 0.394 inches

Material:

Iron alloy 660

Material Specification:

Ams 5737 assn standard single material response

Specification Data:

96906-ms9403 government standard

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A040a0
