Head Style:
Flush (flat) countersunk (included angle - less than 135 degrees w or $\ensuremath{\text{w/o}}$ chamfer)
Shank Diameter:
0.213 inches
Shank Style:
Self-plugging mechanically locked stem
Head Major Diameter:
0.387 inches
Lubrication:
Dry film
Grip Length:
0.375 inches
Countersink Angle:
98.30 degrees
Material:
Iron alloy 660 sleeve
Material Specification:
Ams5737 assn standard single material response sleeve
Surface Treatment:
Passivate sleeve
Surface Treatment Specification:
Qq-p-416 type 2, class 2 federal specification single treatment response collar
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
A040a0
