Fastener Length:

0.428 inches

Head Style:

Universal

Head Height:

0.040 inches

Shank Diameter:

0.0938 inches

Shank Style:

Straight w/radius chamfered tip

Head Major Diameter:

0.094 inches

Special Features:

Material identification marks on rivet head raised mark 0.020 maximum height; dimple depth 0.020 max

Material:

Aluminum alloy 2017

Surface Treatment:

Anodize

Surface Treatment Specification:

Mil-c-5541, class 1a military specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A040a0

Mil-std (military Standard):

Mil-c-5541 spec.
