Fastener Length:

1.584 inches

Head Style:

Belt

Head Major Diameter:

3.970 inches

End Application:

F18 e/f fighter aircraft

Grip Length:

0.3125 inches

Min. Tensile Strength (psi):

1400 pounds per square inch

Shear Strength:

2925 single pounds per square inch

Countersink Angle:

Between 99.0 degrees and 101.0 degrees

Material:

Titanium

Material Specification:

Mil-f-8975, class military specification 4th material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A040a0

Mil-std (military Standard):

Mil-f-8975 spec.
