Collar Outside Diameter:

Between 10.30 millimeters and 10.47 millimeters

Collarheight:

Between 14.0 millimeters and 14.5 millimeters

Collar Inside Diameter:

Between 6.15 millimeters and 6.25 millimeters

End Application:

Tornado

Min. Tensile Strength (psi):

30200 newtons per square millimeter

Minimum Yield Strength:

9 newtons per square millimeter

Collar Style:

Threaded (break off) type

Product Name:

17-4ph stainless steel 1 mm grip variation-tension application

Special Features:

Material collar 17-4 ph stainless steel per ams5643, washer 300 series stainless steel; heat treat to condition h1025 per mil-h-6875, collar only; finish collar solid film lube per mil-l-8937

Material:

Stainless steel

Surface Treatment:

Passivate washer

Thread Series Designator:

Iso m

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A530g0
