Fastener Length:

0.937 inches

Head Style:

Countersunk w/ reverse chamfer

Head Height:

0.035 inches

Shank Diameter:

0.156 inches

Shank Style:

Straight w/radius chamfered tip

Head Major Diameter:

0.210 inches

End Application:

Qe fighter aircraft-first (f18 e/f)

Min. Tensile Strength (psi):

68000 pounds per square inch

Minimum Yield Strength:

58000 pounds per square inch

Countersink Angle:

120.0 degrees

Criticality Code Justification:

Agav

Material:

Aluminum alloy 7075

Surface Treatment:

Anodize

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A040a0
