Min. Tensile Strength (psi):

1400 pounds per square inch

Shear Strength:

2925 single pounds per square inch

Product Name:

Protruding head titanium maxbolt

Special Features:

Stem mat: titanium, stem l: .772, sleeve l: .605

Material:

Titanium sleeve

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A040a0
