Fastener Length:

0.312 inches

Head Style:

Brazier

Shank Diameter:

0.125 inches

Shank Style:

Straight w/radius chamfered tip

Min. Tensile Strength (psi):

26000 pounds per square inch

Material:

Aluminum alloy 2117

Material Specification:

Ms20470 assn standard 1st material response or ms20426 assn standard 2nd material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A040a0
