Cross Sectional Shape:

Rectangular

Inside Diameter:

Between 0.073 inches and 0.077 inches

Casehardening Indicator:

Not casehardened

Major Thickness:

0.017 inches

Ring Style:

E

Usage Design:

External

Strength Rating:

230000.0 pounds per square inch tensile

Material:

Phosphor bronze

Material:

Copper alloy 511

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T252-g
