Cross Sectional Shape:

Rectangular

Inside Diameter:

0.112 inches

Casehardening Indicator:

Not casehardened

Major Thickness:

0.010 inches

Ring Style:

External

Usage Design:

External

Strength Rating:

238000.0 pounds per square inch tensile

Material:

Carbon spring steel, sae, 1065 through 1090

Material:

Carbon spring steel, sae, 1065 through 1090

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T252-g
