Cross Sectional Shape:

Round

Inside Diameter:

Between 4.994 inches and 5.058 inches

Casehardening Indicator:

Not casehardened

Outside Diameter:

Between 5.176 inches and 5.236 inches

Ring Style:

Wire

Material Diameter:

Between 0.089 inches and 0.091 inches

Usage Design:

Internal

Material:

Steel, qq-w-470 or steel, ams 5112

Material:

Steel uns k08500 or steel comp 1090

Material Specification:

Qq-w-470 federal specification 1st material response and ams 5112 assn standard 2nd material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T252-g
