Diameter:

Between 0.294 inches and 0.306 inches

Turnlock Stud Head Style:

Fillister

Stud Assembly Style:

Stud assembly

Distance From Engaging Member To Largest Bearing Surface Of Head:

1.074 inches

Eyelet Outside Diameter:

0.354 inches

Stud Diameter:

Between 0.122 inches and 0.128 inches

Drive Type:

Slotted

Special Features:

Spring cup material is carbon stl per astm a109: spring material is wire-steel per qq-w-47 (music wire): cross-pin material is carbon stl per qq-w-470(music wire)

Material:

Steel comp 4037 stud

Material Specification:

Qq-s-624-4037 federal specification single material response stud

Surface Treatment:

Cadmium

Surface Treatment Specification:

Qq-p-416, class 2, type ii federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A05400
