Hole Diameter:

0.375 inches

Groove Width:

0.375 inches

Flange Thickness:

0.188 inches

Overall Height:

0.750 inches

End Application:

W/s: lpd-17 class amphibious transport dock; truck, heavy expanded mobility tactical (hemtt); wmis, wind measuring and indicating system; arleigh burke class ddg; catapult/arresting gear; nimitz class cvn; ticonderoga class cg (47)

Grommet Style:

Round

Large Flange Outside Diameter:

0.750 inches

Groove Outside Diameter:

0.562 inches

Grommet Construction Type:

Solid

Features Provided:

Coolant resistant and oil resistant

Color:

Any acceptable

Material:

Rubber synthetic

Departure From Cited Document:

As modified by hole dia, groove width, flange thickness, height, large flange outside diameter and groove outside dia

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A05400
