Cross Sectional Shape:

Rectangular

Inside Diameter:

0.225 inches

Casehardening Indicator:

Not casehardened

Major Thickness:

0.025 inches

Ring Style:

External

Usage Design:

External

Strength Rating:

238000.000 pounds per square inch tensile

Material:

Carbon spring steel, sae, 1065-1090

Material:

Carbon spring steel, sae, 1065-1090

Surface Treatment:

Cadmium and chromate

Surface Treatment:

Cadmium plated plain iridite dip finish

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T252-g
