**Cross Sectional Shape:**

Rounded corners

**Inside Diameter:**

4.937 inches

**Casehardening Indicator:**

Casehardened

**Outside Diameter:**

5.063 inches

**Major Thickness:**

0.063 inches

**End Style:**

D shap below inside periphery

**Ring Style:**

Straight gap

**Usage Design:**

External

**Material Hardness Rating:**

Between 45.0 rockwell c and 50.0 rockwell c

**Material:**

Steel, ams 5077

**Material:**

Steel comp 1025

**Material Specification:**

Ams 5077 assn standard single material response

**Surface Treatment:**

Zinc and chromate

**Surface Treatment:**

Zinc plated w/chromate

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T252-g
