Cross Sectional Shape:

Rounded corners

Inside Diameter:

0.461 inches

Casehardening Indicator:

Not casehardened

Major Thickness:

0.035 inches

Ring Style:

External

Usage Design:

External

Material Hardness Rating:

Between 48.0 rockwell c and 56.0 rockwell c

Strength Rating:

180.0 pounds per square inch tensile

Material:

Steel, sae, 1065-1090

Material:

Steel, sae, 1065-1090

Surface Treatment:

Cadmium and chromate

Surface Treatment:

Cadmium plated iridite plain finish

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T252-g
