Cross Sectional Shape:

Round

Casehardening Indicator:

Not casehardened

Outside Diameter:

Between 5.680 inches and 5.920 inches

End Style:

Vertex outside periphery

Ring Style:

Double leg offset

Material Diameter:

0.063 inches

Usage Design:

External

Special Features:

One end has a groove in curve of end

Material:

Steel, qq-w-470

Material:

Steel uns k08500

Material Specification:

Qq-w-470 federal specification single material response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T252-g
