Cross Sectional Shape:

Rounded corners

Inside Diameter:

1.735 inches

Casehardening Indicator:

Not casehardened

Major Thickness:

0.062 inches

Ring Style:

External

Usage Design:

External

Material Hardness Rating:

Between 38.0 rockwell c and 40.0 rockwell c

Strength Rating:

140000.0 pounds per square inch yield

Material:

Copper beryllium alloy, fed, qq-c-533, condition ht

Material:

Copper beryllium alloy, fed, qq-c-533, condition ht

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T252-g
