Cross Sectional Shape:

Rounded corners

Inside Diameter:

0.145 inches

Casehardening Indicator:

Not casehardened

Major Thickness:

0.025 inches

Ring Style:

E

Usage Design:

External

Strength Rating:

238000.0 pounds per square inch tensile

Material:

Carbon spring steel, sae 1065 to 1090

Material:

Carbon spring steel, sae 1065 to 1090

Surface Treatment:

Cadmium and chromate

Surface Treatment:

Cadmium plated, iridite dip

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T252-g
