Cross Sectional Shape:

Rounded corners

Inside Diameter:

0.473 inches

Casehardening Indicator:

Not casehardened

Major Thickness:

0.035 inches

Ring Style:

External inverted lugs

Usage Design:

Internal

Strength Rating:

283000.0 pounds per square inch tensile

Material:

Carbon spring steel

Material:

Carbon spring steel

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T252-g
