Cross Sectional Shape:

Rounded corners

Inside Diameter:

0.461 inches

Casehardening Indicator:

Not casehardened

Major Thickness:

0.035 inches

Ring Style:

External

Usage Design:

External

Strength Rating:

238000.0 pounds per square inch tensile

Material:

Steel

Material:

Steel

Surface Treatment:

Zinc

Surface Treatment:

Zinc plated

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T252-g
