Cross Sectional Shape:

Rectangular

Inside Diameter:

0.300 inches

Casehardening Indicator:

Not casehardened

Major Thickness:

0.035 inches

Ring Style:

E bowed

Usage Design:

External

Material Hardness Rating:

Between 47.0 rockwell c and 52.0 rockwell c

End Play Takeup:

0.025 inches

Material:

Steel, fed federal standard no. 66 aisi c1066 through c1090 or sae 1070 through 1090

Material:

Steel, fed federal standard no. 66 aisi c1066 through c1090 or sae 1070 through 1090

Surface Treatment:

Cadmium and chromate

Surface Treatment:

Cadmium and chromate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T252-g
