Cross Sectional Shape:

Round

Inside Diameter:

Between 2.771 inches and 2.791 inches

Casehardening Indicator:

Not casehardened

Outside Diameter:

Between 3.011 inches and 3.031 inches

Ring Style:

Special

Material Diameter:

Between 0.110 inches and 0.130 inches

Usage Design:

External

Strength Rating:

215000.0 pounds per square inch tensile

Material:

Steel, qq-w-428

Material:

Steel, qq-w-428

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T252-g
