Cross Sectional Shape:

Rectangular

Inside Diameter:

0.238 inches

Casehardening Indicator:

Not casehardened

Major Thickness:

0.035 inches

Ring Style:

External

Usage Design:

External

Material Hardness Rating:

Between 46.0 rockwell d and 51.0 rockwell c

Material:

Steel, fed federal standard no. 66 aisi c1066 through c1090 or sae 1070 through 1090

Material:

Steel, fed federal standard no. 66 aisi c1066 through c1090 or sae 1070 through 1090

Surface Treatment:

Cadmium and chromate

Surface Treatment:

Cadmium and chromate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T252-g
