**Cross Sectional Shape:**

Rectangular

**Inside Diameter:**

3.700 inches

**Casehardening Indicator:**

Not casehardened

**Major Thickness:**

0.109 inches

**Ring Style:**

External

**Usage Design:**

External

**Material Hardness Rating:**

Between 44.0 rockwell c and 51.0 rockwell c

**Material:**

Steel, ams 5520

**Material:**

Steel comp 632

**Material Specification:**

Ams 5520 assn standard single material response

**Surface Treatment:**

Phosphate zinc

**Surface Treatment:**

Phosphate, dod-p-16232, type z, class 2

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T252-g
