Cross Sectional Shape:

Rectangular

Inside Diameter:

3.700 inches

Casehardening Indicator:

Not casehardened

Major Thickness:

0.109 inches

Ring Style:

External

Usage Design:

External

Material Hardness Rating:

Between 44.0 rockwell c and 51.0 rockwell c

Material:

Steel, ams 5520

Material:

Steel comp 632

Material Specification:

Ams 5520 assn standard single material response

Surface Treatment:

Phosphate zinc

Surface Treatment:

Phosphate, dod-p-16232, type z, class 2

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T252-g
