Overall Length:
1.215 inches
Overall Diameter:
0.374 inches
Product Name:
Stud bolt (screw, shoulder)
Special Features:
Aused with ca2110 plug, ca2111 retaining ring and ca2108 flat beam nut; made of alloy steel (8740 or 4140) per mil-s6049 or mil-s-5626;
heat treated; tensile strength of 160-180 k.S.I. Per mil-h-6875, cadmium plated finish per qq-p-416, type 2, class 2; ultimate tensile
strength of 4.700 pounds; ultimate single shear strength 4.350 pounds minumium through hex socket, 7.500 pounds through grip area;
grip range from 0.431 in to 0.570 in
Material:
Steel
Thread Size And Series/type Designator:
0.3750-24 unf
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
