Flange Diameter:

11.100 millimeters

Length:

15.200 millimeters

Knurl Length:

6.320 millimeters

Insert Size:

8.13mm

Features Provided:

Individually keyed

Countersink Angle:

100.0 degrees

Material:

Steel

Surface Treatment:

Cadmium and chromate

Surface Treatment Specification:

Qq-p-416, type 2, class 2 federal specification single treatment response

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A03100
