Flange Diameter:

12.700 millimeters

Length:

10.200 millimeters

Second Flange Thickness:

0.640 millimeters

Insert Size:

8.13mm

Features Provided:

Individually keyed

Special Features:

Knurl lg 3.82 mm

Material:

Steel

Surface Treatment:

Cadmium and chromate

Surface Treatment Specification:

Qq-p-416, type 2, class 2 federal specification single treatment response

Style Designator:

Flange

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A03100
