Cross Sectional Shape:

Rectangular

Inside Diameter:

6.85 millimeters

Casehardening Indicator:

Not casehardened

Major Thickness:

0.78 millimeters

Ring Style:

E

Usage Design:

External

Special Features:

Spring action obtained by slotted appendage opposite clip opening 5.5 mm long by 4.0 mm wide w/ 1.5 mm slot terminated by 2.0 mm dia.

Hole

Material:

Steel, spring

Material:

Steel

Surface Treatment:

Phosphate

Surface Treatment:

Phosphate

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

Yes - demil/mli

Fig:

T252-g
